

I am a resident of New Jersey and I work from my home. I implore you not to interfere with New Jersey's "Do Not Call" Policy - it works. And it works well. If it is more stringent than the Federal policy, all the better. It offers me better protection against telemarketers who are trying to find new ways to bother me during the day with sales pitches I am not interested in hearing. Please let the New Jersey policy stand. Thank you.
